

Installation Cleanup Plan for Years 3-6 for Bushnell General Hospital FUDS

Overview: Based on preliminary results of a Site Histories Report. A project team consisting of federal and state regulatory agency representatives and local officials will be organized to facilitate appropriate site investigations and remediation.

Goals: The program's goals for the years FY+5 through FY+8 are:

- To protect human health and the environment during any required cleanup of contaminated sites.
- Remediation of any discovered hazardous waste sites.
- Investigation of newly discovered contaminated sites, as necessary.
- To provide opportunities for public involvement.

Public Health and The Environment: At the end of FY08, cleanup actions are expected to have eliminated risk through cleanup of contaminated sites.

Summary Status of Cleanup Activity: The cleanup work at the installation is expected to be substantially completed throughout the FY+5 through FY+8 time frame.
